SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Weather of Concern

Northern California

- Showers are likely over Northern California as disturbances pivot around the top of the low.
- Isolated afternoon thunderstorms will be possible as well mainly over the Sierra Cascade range and foothills and over the San Joaquin valley.

Southern California

- There is the possibility of locally heavy rain, especially with any thunderstorms.
- A flash flood watch continues for the burn areas of Los Angeles and Ventura Counties through this afternoon.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

Bureau of Land Management lightning data indicates 450 flashes occurred in the forecast area in just the last 12 hours. These flashes were along and near the cascades and Trinity Alps Eastward. Rainfall amounts were mostly a quarter of an inch or less, but a few locations including Tule Lake, the Mount Shasta ski bowl (where 132 inches of snow still lies), and portions of Modoc County received 0.30" to 0.80". At this hour isolated light showers exist in the Tule Lake basin southwest to the Shasta valley. Low pressure partially responsible for the shower and thunderstorm activity of the last 3 days from the cascades and marble mountains eastward is now about to move onshore near the US/Mexico border. Meanwhile, mid-level high pressure is inching inland north of us as weak troughing squeezes eastward toward the coast from the gulf of Alaska.

Eureka Weather:

A series of weak systems will bring periods of occasional light rain through Wednesday. Wednesday night and Thursday a stronger and unseasonably cold system will bring heavier rain and snow. Friday into the weekend will see high pressure bringing warm and dry conditions.

Reno Weather:

Low pressure will move over far southern California and Nevada today. Moist wrap-around flow will bring some showers and possibly a few thunderstorms to eastern California and Western Nevada today. Monday and Tuesday, the coverage of showers wanes as modest ridging builds overhead. For mid to late week, a stronger and colder system will bring breezy conditions with chances for rain and snow.

San Francisco Weather:

Scattered showers will gradually taper off today and tonight and mostly end by Monday. Dry conditions along with seasonable temperatures are forecast from Monday through most of Wednesday. The next weather system will bring rain chances to the region from Wednesday evening into Thursday. Dry conditions and warmer temperatures are then expected late in the week and into next weekend.

Sacramento Weather:

A low pressure system will bring showers to the north state thru the weekend with isolated thunderstorms possible. Mountain showers will likely continue early this week with another round of showers over the entire north state around mid-week. Snow levels remain high for minimal mountain travel impacts.

Weather

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

A series of pacific storm systems will move inland across California during the next several days. Scattered showers and isolated thunderstorms are expected across the central California interior through the weekend with snow over the high sierra. Temperatures will lower to seasonable levels with little day to day change through early next week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Low pressure will produce showers and isolated thunderstorms for parts of the area through Monday. Dry weather will return by Tuesday as low pressure moves east. Low pressure moving through the great basin may bring isolated showers to interior areas late next week. Warmer weather is possible for next weekend as high pressure returns.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

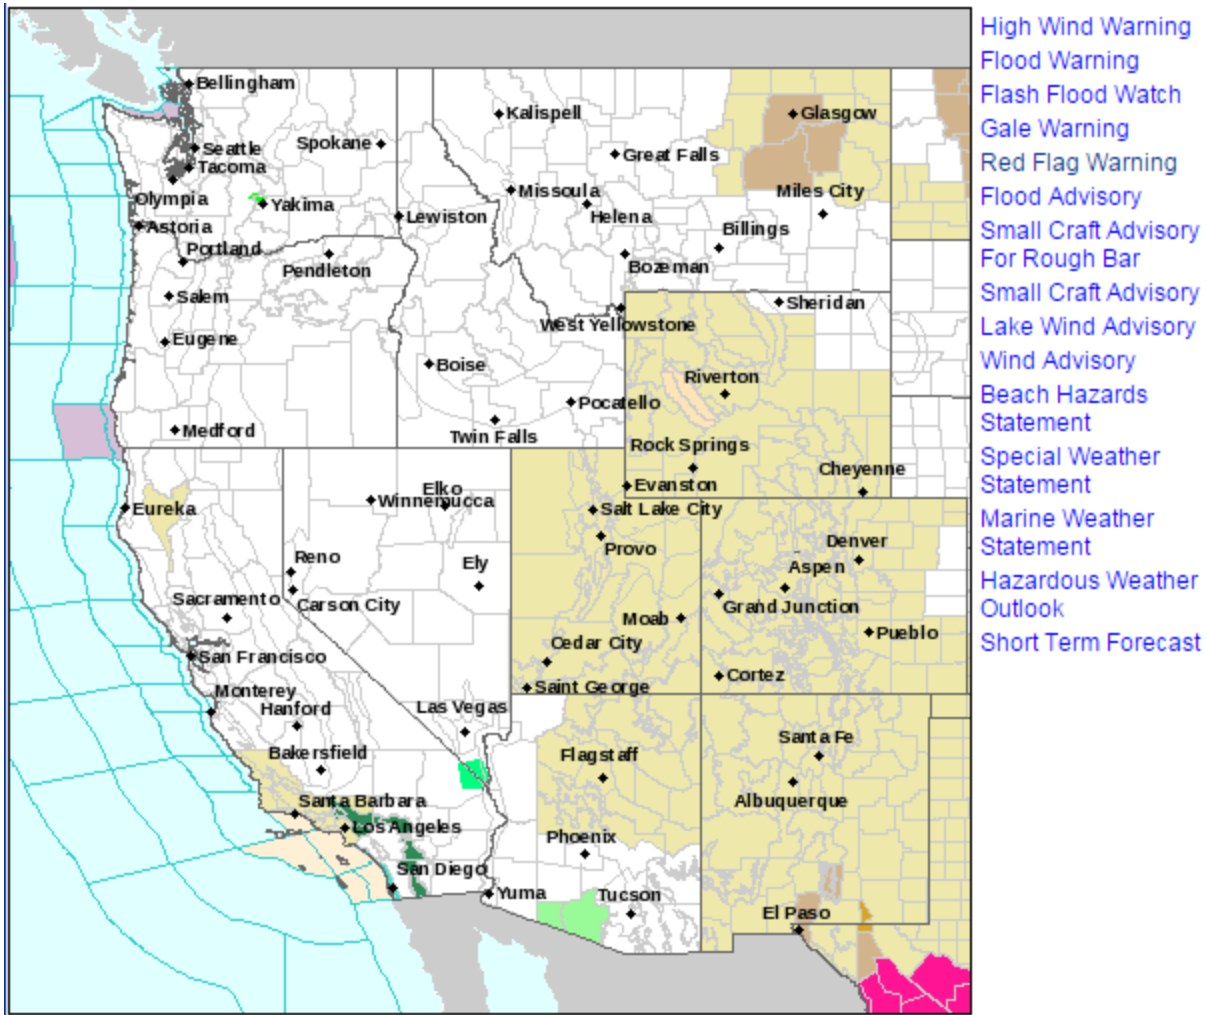

A pair of low pressure systems will continue shower chances into early Tuesday with the potential for any heavier rainfall greater today. Dry and a little warmer for Wednesday. Cooler for Thursday and Friday with strong gusty west winds in the mountains and deserts and small chances for precipitation as a low pressure system moves inland through the great basin. Warmer and dry for next weekend as high pressure along the West Coast strengthens.

Southeast California Weather:

A pacific storm will move through the region today resulting in scattered showers and a few thunderstorms. Possibly heavy thunder storm rain is forecast in the vicinity of Phoenix this afternoon. Partly clearing is expected tonight however another Pacific weather system is forecast to move into the region late Monday and Monday night. Dry and warmer weather will return next Tuesday through Thursday but another pacific weather system is likely next Friday and Friday night.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 59 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 12 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).

NCBRT Updated Course

Advanced Forensic Investigations for Hazardous Environments (PER-228)

This course addresses response in a hazardous environment, with emphasis on evidence collection and recovery, as well as the paradigm shifts that are required for crime scene investigators to safely conduct a crime scene investigation in these types of environments. The course is designed so that participants will develop the required knowledge, skills, and ability to investigate a chemical, biological, radiological, nuclear, and high-yield explosive (CBRNE), toxic industrial chemical (TIC), or hazardous environment crime scene for the identification, documentation, presumptive field testing, preservation, and collection for laboratory analysis of CBRNE/TIC and non-CBRNE/TIC forensic evidence.

CAL OES MISSIONS

New Cal OES Missions

- **2016 LAW 22290, 4/9/2016, 1050 Hours,** Santa Cruz County Sheriff requested two Cal OES K9 trailing teams to assist in locating an at risk 80 year old female who walked away from her care home on 4/8/2016 at 1300. SCSO had contacted CARDA in Santa Clara County. They dispatched the two teams. SCSO requested a mission number. **UPDATE, as of 1530 hours,** the MP was located inside a local mall alive and well. She had spent the night outside last night. **MISSION CLOSED**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
